

**Beyond The Boat**

# SEAFOOD PROCESSING DEMONSTRATION LAB

Sea Grant  
Louisiana

LSU  
AgCenter  
Research · Extension · Teaching

## Field Day

**November 9, 2022**

**10 am to 3 pm**

**LSU AgCenter  
Iberia Research Station  
603 LSU Bridge Rd, Jeanerette, LA  
Lunch provided**

Join us for a field day and showcase Louisiana's only seafood processing demo facility. Learn more about the seafood processing equipment available, and education and outreach programs that will help develop new product concepts and bring them to life. Stay for the day, or just attend the sessions that you are most interested in.

### **SCHEDULE**

**Introduction:** Facility mission and future training schedule

**Session 1:** Refrigeration, including new equipment options and proper techniques  
*Equipment showcase: flake ice*

**Session 2:** Seafood cleaning and cutting  
*Equipment showcase: band saw, shrimp splitter, grinder*

### **Lunch**

**Session 3:** Packaging and labeling  
*Equipment showcase: scales, vacuum packer*

**Session 4:** Freezing and storage  
*Equipment showcase: air freezing, plate freezer*

The new Seafood Processing Demonstration Lab (SPDL) at the Iberia Research Station houses commercial food processing equipment for demonstration, training, and research purposes. The goal is to help potential and existing seafood processors explore opportunities and new concepts for processing, packaging, and value-added seafood products.
