

OYSTER CULTURE CYCLE: STUDENT PREPARATION

Activity 1

Part A. Presentation:

1. Divide into assigned groups.
2. Obtain the background introduction on your assigned stage of the Oyster Culture Cycle Worksheet and flow chart from your teacher. Fill out and turn in flow chart and worksheet for credit as well as the overhead(s) or web site to be used for the presentation by your group.
3. Read the information your group received as well as the questions from your worksheet for your assigned stage (the number or letter on your information sheets will match the questions on the worksheet).
4. Be prepared to present your assigned stage of the oyster culture cycle using notes, overheads, or power point presentation. Also be prepared to help others students answer the questions for your stage.

Part B. Worksheet:

1. Write in the appropriate name for each part of the Oyster Culture Cycle as each group presents.
2. After each presentation, answer the questions for that part of the cycle. Group members who presented will assist you in answering correctly.
3. Turn in completed worksheet.
